Notes

From obs: "We were heading for Ernie Miller Ridge, but got deterred by our group hearing MORE COLLAPSES AND SETTLEMENTS THAN I'VE EVER HEARD IN A SINGLE TRIP, in over 23 years of backcountry skiing. Some in the open, some in the woods. Some small, some HUGE and FAR running. Some heard by the person in front, some by the 4th in our party, some where we were following an old skin track, some where we were in fresh snow. As a group we probably heard 25 over the course of the day. We didn't dig any formal pits, as the snow was telling us all we needed to know. Stay safe out there. Thanks"
