

Cracking and Collapsing near Ennis Lake

Red Knob

Northern Madison

1/26/2019

Code

Elevation

8000

Latitude

45.45470

Longitude

-111.59200

Notes

From the email: "Went to Red Knob, up Trail Creek at the northeast side of Ennis Lake. Between the two of us, we experienced 16 collapses on slopes above 7000 feet to the top at 8000. Did not dig any pits, stayed on slopes less than 30. One slope at about 30 collapsed and shifted down slope a few inches." - J. Riedel and A. Hjelt
