

Small avalanche Lower Nose

Bridger Bowl
Bridger Range
11/24/2022
Code
SS-R1-D1-I
Elevation
7500
Aspect
E
Latitude
45.81560
Longitude
-110.92300
Notes

Skiers at Bridger Bowl observed a small avalanche that was likely human-triggered on the Lower Nose. New snow and wind combined to create instabilities on slopes. The ski area is closed and represents a backcountry snowpack until the ski patrol begins avalanche mitigation in preparation for the opening.
