

Avalanches seen from bridger canyon road

Date

Mon, 01/30/2023 - 08:00

On the drive up to bridger bowl, I saw debris from several avalanches at the top of the ridge south of saddle peak. Aspects E-SE. I didn't get a super good view, but I'm estimating they were size R1-2 / D1-2 and couldn't tell for sure if they were loose or slab avalanches.

Region

Bridger Range
