

Whumpf at Quake Lake

Quake Lake

Lionhead Range

2/28/2023

Code

Latitude

44.85240

Longitude

-111.39200

Notes

Pretty mild observations: north ridge above Hebgen, some woomfing on the ridge pretty subtle. This was yesterday morning, on the ridge top. Tons of new snow. Also point release in the [slide](#) area, north face of [slide](#) scare, above quake lake, visible from the road new in the last couple of days. Obviously natural [trigger](#) there.
