

Hot in the Bridgers

Date

Fri, 04/05/2024 - 07:25

Activity

Skiing

Toured up to fairy lake this morning, found a somewhat frozen snowpack that rapidly warmed. 830am was when we dropped in, @9000 we found a isothermic snow pack that had only around 3-4 of frozen snow over very warm slush. Rockfall started around 900am.

Region

Bridger Range

Location (from list)

Fairy Lake

Observer Name

Jay Alford
