

Bacon Rind

Date

Mon, 12/16/2024 - 11:22

Activity

Skiing

Skied Bacon Rind meadows today. Didn't look at the Skillet.

S1-S2 all day, L-M winds from the south

HS of 45cm at the road and 65cm at the ridgeline. It is more or less entirely faceted and unsupportable. Ski pen of 40cm and boot pen to the ground.

Skiing was good but hazardous. Lots of audible rock strikes, and getting through the trees back to the road was challenging.

Not recommended yet.

Region

Southern Madison

Location (from list)

Bacon Rind
