Wet slide debris below Saddle Peak

Date
Sat, 05/10/2025 - 12:30
Activity
Skiing

Observed one pile of what looked to be fairly recent wet slide debris at the bottom of the cliffs below the Football Field on Saddle. Surprisingly, not a whole lot else of recent activity around Bridger. Seems like most things that wanted to go has already done so some days ago...

Region
Bridger Range
Location (from list)
Saddle Peak
Observer Name
Alexey
